Austin Community College is a public two-year institution that serves a diverse population of approximately 41,000 credit students each Fall and Spring semester. We embrace our identity as a community college, as reflected in our mission statement. We promote student success and community development by providing affordable access, through traditional and distance learning modes, to higher education and workforce training, including appropriate applied baccalaureate degrees, in our service area.

As a community college committed to our mission, we seek to recruit and retain a workforce that:

- Reflects the diversity of our community
- Values intellectual curiosity and innovative teaching
- Is attracted by the college's mission to promote equitable access to educational opportunities
- Cares about student success and collaborates on strategies to facilitate success for underrepresented populations
- Welcomes difference and models respectful interaction with others
- Engages with the community both within and outside of ACC

Commitment to Equity and Inclusion

ACC is committed to the ongoing systemic changes needed to ensure the increased recruitment, inclusion, retention, and completion of historically underserved and underrepresented populations. Through continual strategic community engagement and professional development of administrators, faculty, staff, and students, the college demonstrates its dedication to fostering a culture and climate for equitable outcomes.

ACC is proud to serve a diverse student body as an open-access and low-cost institution. Dedicated faculty members are excellent professors who help students achieve their educational goals and are sensitive to our students' diverse cultures and socio-economic backgrounds. In 2017 our faculty adopted a Statement of ACC Faculty Values. This Statement affirms that ACC's faculty members value collaboration, service, agency, scholarship, inclusion, and teaching, all of which attest to our commitment to equity, diversity, and inclusion at the heart of our mission.

Job Posting Title:

Adjunct Faculty, Engineering Technology

Job Description Summary:

Responsible to prepare and deliver coursework in engaging, innovative, and discipline-appropriate ways that reflect a commitment to success equity, respect for diversity, an understanding of culturally responsive teaching, and knowledge of the teaching field. Meets professional standards for faculty in accordance with college policies and procedures.

Job Description:

The Engineering Technology department provides education and training for students who are seeking a technical career in an electronics technology related field. Moreover, the work of the department is to serve the central Texas business and industry corridor by providing a highly skilled and qualified technical workforce via its program offerings. The Engineering Technology department will consistently work toward fulfilling its mission while simultaneously holding true to the values prescribed by the Austin Community College District.

Principal Responsibilities and Duties

- Prepare and teach courses in the field of electronics and engineering technology to a diverse student population based on the department's approved course learning outcomes, utilizing a variety of instructional strategies appropriate to the needs of community college students and the standards of the discipline.
- Evaluate student progress and provide clear, timely feedback reflecting program learning outcomes and departmental expectations.
- Provide teaching and mentoring services to students in a manner which does not discriminate based on race, color, religion, sex, sexual orientation, gender identity, national origin, disability, age, protected veteran status, political affiliation, or other protected categories.
- Remain current in the field through a variety of professional development activities.
- Use ACC approved technology and learning management system, Blackboard for teaching purposes
- Perform other related tasks as assigned by the department chair, dean, and/or associate vice president, vice president, executive vice president.

Additional Duties

Hold office hours as required

Technology

 Demonstrated proficiency using computer applications, online resources, and other technologies for the classroom. Demonstrated proficiency using an online learning management system such as Blackboard to develop and build course content and perform administrative duties (posting office hours, syllabi, etc.)

Principal Professional Standards

- Meet deadlines for attendance certification and submission of final course grades.
- Maintain regular office hours to assist students and improve student retention and success.
- Recognize and reflect standards of civility and collegiality in all interactions.
- Comply with published college policies and procedures and meet professional standards for teaching in a community college.
- Appropriate use of the college's learning management system.

Required Education

Educational requirements in accordance with SACSCOC accreditation standards.

- Bachelor of Science in Electrical Engineering, Electronics Engineering Technology, Computer Engineering; or
- Associate degree in Electrical Engineering, Electronics Engineering Technology, Computer Engineering plus 3 years work experience

No substitution for educational requirements.

Required Work Experience

• Three (3) years of industry (non-teaching) work experience is required.

Working Conditions

- Work is routinely performed in an office/classroom environment.
- Subject to standing, walking, sitting, bending, reaching, kneeling, pushing, and pulling.
- Ability to lift up to 10 pounds.
- Work safely and follow safety rules. Report unsafe working conditions and behavior. Take reasonable and prudent actions to prevent others from engaging in unsafe practices.
- Be prepared to teach at different ACC campuses and High School campuses for dual credit courses.
- Be prepared to teach in a variety of formats, face-to-face, online and hybrid.
- Must use the Blackboard Learning Management System for the courses taught.
