The Unmanned Aircraft Systems (UAS) is designed to prepare students to enter the workforce as entry level operators and technicians in this occupational field. Through some lecture and mostly hands-on activities, students learn the operation and repair of both types of vehicles. The course will cover basic electronics, basic mechanics, GIS, FAA licensing requirements, safety, and career opportunities.

Applications for Part-Time, Associate Faculty pools are continually accepted (unless otherwise specified) by the District and will be added to the application pool for review by hiring authorities on an as-needed basis. Should you be invited for an interview, you will be contacted by a District representative.
