Austin Community College is a public two-year institution that serves a multicultural population of approximately 41,000 credit students each Fall and Spring semester. We embrace our identity as a community college, as reflected in our mission statement. We promote student success and community development by providing affordable access, through traditional and distance learning modes, to higher education and workforce training, including appropriate applied baccalaureate degrees, in our service area.

As a community college committed to our mission, we seek to recruit and retain a workforce that:

- Values intellectual curiosity and innovative teaching
- Is attracted by the college's mission to promote equitable access to educational opportunities
- Cares about student success and collaborates on strategies to facilitate success for populations including; first generation college students, low-income students, and students from underserved communities.
- Focused on student academic achievement and postgraduate outcomes
- Welcomes difference and models respectful interaction with others
- Engages with the community both within and outside of ACC

Job Posting Title:

Adjunct Faculty, Cardiac Sonography

Job Description Summary:

Responsible for preparing and delivering cardiac sonography program coursework in engaging, innovative, and discipline-appropriate ways that reflect a commitment to success, equity, an understanding of culturally responsive teaching, and knowledge of the teaching field. Meets professional standards for faculty per college policies and procedures.

Job Description:

Program Information

The Sonography Program is comprised of two tracks in which students will earn their Associate of Applied Science, Advanced Technical Certificate, and eligibility for national credentialing examinations in Diagnostic Cardiovascular or Medical-Vascular (including OBGYN) Sonography. Additionally, we offer an Advanced Technical Certificate in Cardiac Sonography for credentialed sonographers seeking

formal education in this specialty. The Sonography program is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP). We offer comprehensive didactic and clinical education with on-campus labs and direct patient care experience in every semester of the program. The program is committed to ensuring our curriculum aligns with industry standards through collaboration with our clinical affiliates and sonography professional organizations.

Principal Responsibilities and Duties

- This adjunct position will assist in preparing students for all aspects of the cardiac sonography profession, with a focus on clinical instruction.
- Prepare and teach courses in the field of adult cardiac sonography to a multicultural student population based on the department's approved course learning outcomes, utilizing a variety of instructional strategies appropriate to the needs of community college students and the standards of the discipline.
- Evaluate student progress and provide clear, timely feedback reflecting program learning outcomes and departmental expectations.
- Provide teaching and mentoring services to students in a manner that does not discriminate based on race, color, religion, sex, sexual orientation, gender identity, national origin, disability, age, protected veteran status, political affiliation, or other protected categories.
- Remain current in the field through a variety of professional development activities.
- Perform other related tasks as assigned by the department chair, dean, and/or associate vice chancellor, vice chancellor, executive vice chancellor. esident.

Additional Duties

- This position involves direct cardiac sonography skills instruction at ACC's Round Rock Campus Sonography Lab, 8:00 am - 5:00 pm, 1-2 days per week.
- Occasional evening/weekend duties as assigned, such as open lab and outreach events.

Technology

- Demonstrated proficiency using computer applications, online resources, and other technologies for the classroom.
- Demonstrated proficiency using an online learning management system such as Blackboard to develop and build course content and perform administrative duties (posting office hours, syllabi, etc.)
