curriculum, assesses student learning, and provides student advising.

Essential Duties and Responsibilities:

- Provide instruction in area of Exercise Science, using approved course outcome guides. Teaching assignments may be during the day (including early morning), evening, or weekend, and could include classes taught at any of the College campuses, online or remotely.
- Provide student advising and assistance in areas of course selection, career planning, job placement and employment follow-up.
- Hold at least five scheduled office hours per week for student help sessions and program assistance.
- Utilize College tools and resources, including the Learning Management System and Disability Services software, to support teaching activities as appropriate.
- Participate in department meetings, curriculum revision, course assessment, program assessment, and program review.
- Engage in regular professional growth activities, remain current in the field, and maintain current credentials or licensures as required by the program.
- Participate in service to the college. This may include participating in College committees, taskforces, peer teams, or other activities.
- Provide meaningful, professional service to the community, businesses, public agencies, and other organizations.
- Perform other essential job functions as assigned that support the overall objective of the position.

Knowledge, Skills, and Abilities:

Individuals must possess the following knowledge, skills and abilities or be able to explain and demonstrate that the individual can perform the duties and responsibilities of the job, with or without reasonable accommodation, using some other combination of skills and abilities. The individual is expected to follow College work rules and policies.

- Thorough knowledge in the field of exercise science and health/wellness and demonstrated ability to apply this knowledge.
- Ability to adapt and use a variety of teaching and assessment techniques including the use of technology to enhance student success.
- Ability to observe, direct, and oversee students ensuring safety in the classroom or laboratory.
- Ability to work with and present various curriculum concepts to a wide range of students with varying diverse backgrounds, abilities, and learning styles.
