learning, and provides student advising.

CTE Program Director Information:

Every CTE program has a Program Director. As faculty within the Manufacturing Technology program, you may be asked to perform the job duties of the Program Director for the program. In the event that this designation is given, you will be provided with the information regarding this position prior to any appointments.

Essential Duties and Responsibilities:

- You will provide dynamic instruction with a focus on welding and fabrication using approved course outcome guides.
- You will develop and deliver engaging, hands-on learning projects for students that meet the hiring needs of local industry employers.
- You will work in a team environment with fellow Manufacturing Technology faculty and program staff to grow and improve the program.
- You will advise students on their education plans and career paths, helping advisees create academic plans that work towards their career goals.
- You will model and demonstrate safe practices in a shop setting to ensure students are ready for employment.
- You will build partnerships with local industry and high school instructors to ensure a strong
 pipeline of students in the program and build job placements for degree and certificate
 completers.

Knowledge, Skills, and Abilities:

Individuals must possess the following knowledge, skills and abilities or be able to explain and demonstrate that the individual can perform the duties and responsibilities of the job, with or without reasonable accommodation, using some other combination of skills and abilities. The individual is expected to follow College work rules and policies.

- Thorough knowledge in the field of welding and fabrication and a demonstrated ability to apply this knowledge. Welding processes include SMAW, GTAW, FCAW, and GMAW.
- Ability to adapt and use a variety of teaching and assessment techniques.
- Ability to observe, direct, and oversee students, ensuring safety in the classroom and/or laboratory.
- Ability to support expansion of the program to incorporate future trends in manufacturing and provide skill levels necessary to respond to this evolving, changing industry and workforce in Central Oregon.

- Ability to work comfortably in a team-teaching environment using the full range of teaching modes.
- Ability to adapt and use a variety of teaching and assessment techniques including the use of technology to enhance student success.
- Ability to observe, direct, and oversee students ensuring safety in the classroom or laboratory.
- Ability to effectively use Microsoft Office suite and other technology used in the instruction setting.
- Ability to communicate effectively and respectfully with diverse colleagues, staff, and community members.
- Ability to provide services to students in a manner which does not discriminate as to race, creed, religion, color, national origin, disability, age, sex, sexual preference or marital status.
- Willingness to travel and or teach at various hours and locations, as required.
- Ability to foster a collaborative atmosphere among students and the willingness to work as a member of a team with faculty.

Minimum Requirements:

Education:

 An AAS degree or credential in welding or relevant field with a minimum of 24 quarter hours (16 semester hours) of credit in manufacturing.

Experience:

- One year of relevant experience working in the field.
- Demonstrated successful teaching, or evidence for the potential for excellence in teaching.

Preferred Qualifications:

Education:

 Bachelors degree in Manufacturing, Manufacturing Technology, Industrial Engineering, Mechanical Engineering, or related field.

Experience:

- Teaching experience in a community college, or other higher education, environment.
- · Work experience in an industrial setting.

The goal of Central Oregon Community College is to provide an atmosphere that encourages our faculty, staff and students to realize their full potential. In support of this goal, it is the policy of Central Oregon Community College that there will be no discrimination or harassment on the basis of age, disability, sex, marital status, national origin, ethnicity, color, race, religion, sexual orientation, gender identity, genetic information, citizenship status, veteran or military status, pregnancy or any other classes protected under federal and state statutes in any education program, activities or employment. Persons with questions about this statement should contact Human Resources at 541.383.7216 or the Vice President for Student Affairs at 541.383.7211.

This policy covers nondiscrimination in both employment and access to educational opportunities. When brought to the attention of the appropriate parties, any such actions will be promptly and equitably responded to according to the process outlined in general procedures sections N-1, N-2, or N-3.

In support of COCCs EEO statement, bilingual fluency in English and Spanish is considered a plus, along with experience working in a diverse multicultural setting.
