Austin Community College is a public two-year institution that serves a multicultural population of approximately 41,000 credit students each Fall and Spring semester. We embrace our identity as a community college, as reflected in our mission statement. We promote student success and community development by providing affordable access, through traditional and distance learning modes, to higher education and workforce training, including appropriate applied baccalaureate degrees, in our service area.

As a community college committed to our mission, we seek to recruit and retain a workforce that:

- Values intellectual curiosity and innovative teaching
- Is attracted by the college's mission to promote equitable access to educational opportunities
- Cares about student success and collaborates on strategies to facilitate success for populations including; first generation college students, low-income students, and students from underserved communities.
- Focused on student academic achievement and postgraduate outcomes
- Welcomes difference and models respectful interaction with others
- Engages with the community both within and outside of ACC

Job Posting Title:

Faculty, Geospatial Engineering

Job Description Summary:

The Geospatial Engineering Faculty supports learning on campus, in simulation, and through clinical experiences. Responsible to prepare and deliver coursework in engaging, innovative, and discipline-appropriate ways that reflect a commitment to student success and creating an environment that promotes belonging for all. This position starts in August 2025. Meets professional standards for faculty in accordance with college and departmental policies and procedures.

Job Description:

Geospatial Engineering faculty help students become experts in field work, as well as CAD (computer-aided design) and survey data processing. The Geospatial Engineering associate degree helps students prepare for the state certification as a surveyor-in-training (SIT). The Geospatial Engineering Level I certificate is designed for students seeking entry-level employment as a geospatial engineering or land surveying professional. The Level II Certificate provides further learning for preparation for the NCEES Fundamentals of Surveying Exam; and for certification by the Texas Board of Professional

Land Surveying as a Surveyor in Training (SIT).

This faculty role will support students in beginning to master surveying terminology and techniques in compliance with Texas Board of Professional Land Surveying standards; collect precise field measurements, process data, evaluate evidence, and publish surveys in support of mapping, boundary surveying, engineering, and construction projects.

Principal Responsibilities and Duties

- Prepare and teach courses in the field of Geospatial Engineering to a student population based on the department's approved course learning outcomes, utilizing a variety of instructional strategies appropriate to the needs of community college students and the standards of the discipline.
- Participate actively in departmental responsibilities and departmental governance, including curriculum review and revision, program review, assessment of student learning outcomes at the course and program level, and other departmental activities.
- Evaluate student progress and provide clear, timely feedback reflecting program learning outcomes and departmental expectations.
- Serve as a mentor to students in the Geospatial Engineering program.
- Provide teaching and mentoring services to students in a manner which does not discriminate based on race, color, religion, sex, sexual orientation, gender identity, national origin, disability, age, protected veteran status, political affiliation, or other protected categories.
- Remain current in the field through a variety of professional development activities.
- Support division and department goals through active and collegial engagement in decision-making and unit-level planning.
- Serve on collegewide and departmental committees, councils, work groups, and task forces.
- Perform other related tasks as assigned by the department chair, dean, and/or associate vice chancellor, vice chancellor, executive vice chancellor.

Technology

- Demonstrated proficiency using computer applications, online resources, and other technologies for the classroom and survey field work, including survey equipment.
- Demonstrated proficiency using an online learning management system such as Blackboard to develop and build course content and perform administrative duties (posting office hours, syllabi, etc.).
- Demonstrated proficiency in utilizing discipline-specific technology with interest in new innovations in the industry.

Principal Professional Standards

- Appropriate use of the college's learning management system.
- Meet deadlines for attendance certification and submission of final course grades.
- Participate in graduation, general assembly, and other official college functions.
- Maintain regular office hours to assist students and improve student retention and success.
- Attend and participate in collegewide, campus, department, or other activities and meetings.
- Recognize and reflect standards of civility and collegiality in all interactions.
- Comply with published college policies and procedures and meet professional standards for teaching in a community college.

Required Education and Work Experience

- In accordance with Southern Association of College and Schools Commission on Colleges (SACSCOC) requirements:
 - Associate or Bachelor's degree including at least 32 semester hours in civil engineering; land surveying; mathematics; photogrammetry; forestry; land law; and/or the physical sciences; or
 - Associate degree in Land Surveying or Geospatial Engineering

Required Work Experience

In accordance with Southern Association of College and Schools Commission on Colleges (SACSCOC) requirements:

- Three years of non-teaching, industry-related work experience.

Required Licensure

- Current Registered Professional Land Surveyor (RPLS) license.

Qualities of a Successful Candidate

- Ethics, integrity, and sound professional judgment.
