Austin Community College is a public two-year institution that serves a multicultural population of approximately 41,000 credit students each Fall and Spring semester. We embrace our identity as a community college, as reflected in our mission statement. We promote student success and community development by providing affordable access, through traditional and distance learning modes, to higher education and workforce training, including appropriate applied baccalaureate degrees, in our service area.

As a community college committed to our mission, we seek to recruit and retain a workforce that:

- Values intellectual curiosity and innovative teaching
- Is attracted by the college's mission to promote equitable access to educational opportunities
- Cares about student success and collaborates on strategies to facilitate success for populations including; first generation college students, low-income students, and students from underserved communities.
- Focused on student academic achievement and postgraduate outcomes
- Welcomes difference and models respectful interaction with others
- Engages with the community both within and outside of ACC

Job Posting Title:

Coordinator, Environmental Health & Safety

Job Description Summary:

To coordinate the development, implementation, and maintenance of an environmental, health and safety management system to ensure a safe and healthy workplace for employees and healthy learning environment for students and visitors.

Job Description:

Description of Duties and Tasks

- 1) Manages and coordinates assigned environmental, health and safety programs for Austin Community College (ACC).
- 2) Coordinates hazardous waste management from all campuses and departments while ensuring compliance with all local, state, and federal regulations.
- 3) Conducts site assessments, reviews, and self-inspections; analyzes and interprets results, recommends appropriate corrective actions, communicates results, and follows up on issues or

concerns until resolution.

4) Implements and maintains ACC policies and procedures ensuring adherence to local, state, and federal environmental, health, and safety regulations. Keeps abreast of changes to legislation and regulations that impact the organization. Serves as a contact with federal, state, and local regulatory agencies.

5) Conducts thorough incident reviews, determines root causes and recommends appropriate corrective and preventative actions. Tracks corrective and preventative actions to closure. Uses data analysis and trending to determine strategic environmental, health and safety program improvements and planning for continuous improvements.

6) Develops, implements, and coordinates safety, health, and environmental training collegewide.

7) Manages and coordinates the ACC asbestos and lead abatement programs.

8) Responds and provides technical support and/or work with outside agencies/contractors on emergency situations such as HAZMAT spills, evacuations drills, crisis management, etc.

9) Assists with the design and development of facilities, improvement of work areas, and improvement regarding work procedures to ensure the implementation of environmental, health, and safety requirements to create and maintain a healthy and safe environment.

10) Participates on committees and working groups when requested. Provides technical knowledge on health and safety-related issues, plans, and projects for implementation.

11) Acts as a subject matter expert for projects or working with vendor bids, evaluates options, prepares budget estimates, and obtains concurrence on initial scope of work.

12) Responds as requested and required to institutional emergencies as needed, on an on-call rotational basis.
