accordance with the standards established by the American Veterinary Medical Association. To support the Veterinary Technician Programs growth as it begins annual enrollment.

Essential Duties and Responsibilities:

- Provide instruction for program courses involving lecture only or lecture and laboratory settings in a collegial environment along with full time tenure track faculty members and part-time faculty members.
- Prepare laboratory environments for instruction by assembling and maintaining necessary resources with the aid of a laboratory assistant.
- Remain current in the field of Veterinary Medicine, Veterinary Technician and/or Veterinary Technician Education through a variety of professional activities and by staying current on State Licensure.
- Demonstrate a potential for excellent classroom and lab instruction using the provided curriculum. Support and guidance will be provided by the Program Director and Full-Time Faculty.
- Maintain grade, records of completion of essential skills completed by students, inputting data or otherwise retaining information regarding students and their progress in meeting instructional goals utilizing Canvas learning management software and other resources provided.
- Hold at least one scheduled office hour per class per week for student help sessions and program assistance.
- Perform other essential job functions as assigned.

Knowledge, Skills, and Abilities:

Individuals must possess the following knowledge, skills and abilities or be able to explain and demonstrate that he or she can perform the essential functions of the job, with or without reasonable accommodation, using some other combination of skills and abilities. The individual is expected to follow College work rules and policies.

- Thorough knowledge in the field of Veterinary Medicine, Veterinary Technician and/or Veterinary Technician Training and demonstrated ability to apply this knowledge.
- Desire to advocate for all species and work with the species referenced in the classwork or lab (large, small, exotics, lab, birds, etc.).
- Knowledge of and vision of the Certified Veterinary Technicians role in the veterinary profession.
- Experience working with Certified Veterinary Technicians in a clinical, research, and/or academic setting.
- Visual ability, corrected, to enable instructors to observe, direct, and supervise students in

The goal of Central Oregon Community College is to provide an atmosphere that encourages our faculty, staff and students to realize their full potential. In support of this goal, it is the policy of Central Oregon Community College that there will be no discrimination or harassment on the basis of age, disability, sex, marital status, national origin, ethnicity, color, race, religion, sexual orientation, gender identity, genetic information, citizenship status, veteran or military status, pregnancy or any other classes protected under federal and state statutes in any education program, activities or employment. Persons with questions about this statement should contact Human Resources at 541.383.7216 or the Vice President for Student Affairs at 541.383.7211.

This policy covers nondiscrimination in both employment and access to educational opportunities. When brought to the attention of the appropriate parties, any such actions will be promptly and equitably responded to according to the process outlined in general procedures sections N-1, N-2, or N-3.

In support of COCCs EEO statement, bilingual fluency in English and Spanish is considered a plus, along with experience working in a diverse multicultural setting.
