The Foothill-De Anza Community College District is currently accepting applications for the faculty position of Instructor, Biology, De Anza College.

The Foothill - De Anza Community College District does not have a remote work policy. All employees are expected to be available to work in person and on-site per the requirement of the department.

The Foothill-De Anza Community College District does not reimburse applicants for travel, lodging or any other costs incurred by applicant to attend interviews. All interviewing costs incurred will be the responsibility of the applicant.

De Anza College Mission Statement:

De Anza College provides an academically rich, multicultural learning environment that challenges students of every background to develop their intellect, character and abilities; to realize their goals; and to be socially responsible leaders in their communities, the nation and the world.

De Anza College fulfills its mission by engaging students in creative work that demonstrates the knowledge, skills and attitudes contained within the college's Institutional Core Competencies:

- Communication and expression
- Information literacy
- Physical/mental wellness and personal responsibility
- Civic capacity for global, cultural, social and environmental awareness
- Critical thinking

DUTIES AND RESPONSIBILITIES OF THE POSITION INCLUDE:

Under the direction of the Dean, Biological, Health, Environmental Sciences Division instruct community college biology courses to a diverse student population at a college committed to student equity. The instructor will be expected to teach in two or more topic areas. Course topic areas are typical of lower division undergraduate work in biology, which include: ecology and evolution, organismal biology, cell and molecular biology, and general biology for non-majors. Secondary duties could include activities such as student recruitment and advising; develop, implement, and evaluate curriculum in the subject matter of expertise in both the laboratory and lecture where appropriate, both credit and noncredit course; student success, completion, retention, and persistence data analyses that disaggregates for impacts on diverse categories of student groups, engagement with the community as a representative of their discipline and department, participation in college-wide (and

district-wide) planning, commitment to diversifying curriculum delivery to best meet the evolving needs of our students (e.g., Credit for Prior Learning, Competency-Based Education, short-term course offerings, Dual Enrollment, Incarcerated Student offerings) and act as liaison between the college and professional and/or educational organizations and community advisory groups This should include the integration of computers for instructional purposes in both the laboratory and lecture where appropriate. Standard duties expected of all faculty include development and evaluation of curricula, maintaining scheduled office hours, attendance at department and division meetings, pursuing professional growth activities, and performing other duties consistent with the role of an instructor. Instructors also serve on District and college committees and participate in campus extracurricular activities.

MINIMUM QUALIFICATIONS:

1. Understanding of, sensitivity to, and respect for the diverse academic, socio-economic, ethnic, religious, and cultural backgrounds, disability, and sexual orientation of community college students, faculty and staff.
2. A Master's degree in any biological science **OR** Bachelor's in any biological science **AND** Master's in biochemistry, biophysics, or marine science **OR** the equivalent.

PREFERRED QUALIFICATIONS:

1. College-level instructional experience in Biology.
2. Community College level experience teaching Biology lecture and laboratory classes.
3. Experience working with live cultures
4. Experience with interdisciplinary applications of biology
5. Experience with techniques and equipment required in teaching subject areas in lecture and laboratory.
6. Teaching pedagogy adaptable to a variety of learning styles including an emphasis on interactive multimedia, internet resources, and hands-on lab experiences.

In addition, successful candidates will demonstrate the following:

1. Ability to teach and communicate effectively with students.
2. Ability to work closely and cooperatively with faculty and support staff.
3. Ability to develop curriculum and work with academically and culturally diverse students.
4. Flexibility and ability to work as a member of a team of professionals.
5. Ability to communicate articulately and effectively with individuals differing in age, gender, ethnicity, educational, and economic background.
