Austin Community College is a public two-year institution that serves a multicultural population of approximately 41,000 credit students each Fall and Spring semester. We embrace our identity as a community college, as reflected in our mission statement. We promote student success and community development by providing affordable access, through traditional and distance learning modes, to higher education and workforce training, including appropriate applied baccalaureate degrees, in our service area.

As a community college committed to our mission, we seek to recruit and retain a workforce that:

- Values intellectual curiosity and innovative teaching
- Is attracted by the college's mission to promote equitable access to educational opportunities
- Cares about student success and collaborates on strategies to facilitate success for populations including; first generation college students, low-income students, and students from underserved communities.
- Focused on student academic achievement and postgraduate outcomes
- Welcomes difference and models respectful interaction with others
- Engages with the community both within and outside of ACC

Job Posting Title:

Cybersecurity Governance, Risk and Compliance Analyst-1

Job Description Summary:

Under the supervision of the Cybersecurity Governance, Risk, and Compliance Manager, the GRC Analyst assumes a pivotal position within the GRC team, ensuring our organization adheres to regulatory frameworks, effectively manages risks, and upholds exemplary governance standards. The GRC Analyst serves as a vital resource for staff and leadership, offering expertise in information security policy development, implementation, interpretation, and compliance. Additionally, they play a crucial role in fostering a security-first culture throughout the organization by spearheading comprehensive training and awareness programs.

Job Description:

Description of Duties and Tasks

- Assists with the development of System Security Plans, Continuous Monitoring, Plan of Action and Milestones, Security Controls Assessment, Risk Exposure analysis, all in accordance with TCF/NIST requirements
- Researches, recommends, and contributes to information security policies, standards, and procedure development. Assists with the lifecycle management of information security policies and supporting documents.
- Manages an exception review and approval process, and assures exceptions are documented and periodically reviewed
- Updates security controls and provides support to all stakeholders on information security controls covering internal assessments, regulations, and protecting FERPA and Personally Identifying Information (PII).
- Assists and performs IT security control effectiveness reviews. Manage remediation efforts for the identified gaps including assessment of new or enhanced implemented controls.
- Collaborates with internal teams to conduct regular assessments of information security policies, procedures, and controls to ensure compliance with relevant regulations and standards
- Prepare detailed reports on assessment findings, monitor status updates, and ensure that corrective actions are implemented effectively and sustainability.
- Creates information security and cyber awareness communications and training content for all employees.
